Upgrade to iOS 8

In order to upgrade your device to iOS 8, you need to ensure your device is one of the following.

**iOS 8 will be compatible with:**

- iPhone 4s
- iPhone 5
- iPhone 5c
- iPhone 5s
- iPod touch 5th generation
- iPad 2
- iPad 3rd generation
- iPad 4th generation

Once you have checked that your device is one of the above, you are right to upgrade the operating system.

There are now two methods to upgrade your iOS device. The first method utilises your computer.

**It is important that you have backed up your iPad BEFORE you upgrade. If you have any issues with the upgrade process, the backup will allow you to restore your settings without issue.**

**Upgrade using your computer only**

Plug your iPad into your computer with iTunes running. As long as you are running iOS 7 and have an iPad 2 or greater, the following will appear.

**iOS 7.0.3**

A newer version of the iPad software is available (version 8.0.2). To update your iPad with the latest software, click Update.

[Update]  [Restore iPad…]

Select Update.
Select Update. The update process will then begin.

After the update has completed, your computer will ask you for permission to access the iPad. You will then need to perform the following steps on the iPad.

From the iPad, swipe to continue.
Select "Trust" to Trust the PC you are connected to.
Update Completed

Your iPad was updated successfully. There are just a few more steps to follow, and then you’re done!

Continue

Trust This Computer?
Your settings and data will be accessible from this computer when connected.

Trust  Don’t Trust

Select Continue

Choose a Wi-Fi Network

redlands

Choose another network
Create a Passcode

A passcode protects your data and is used to unlock iPad.

---

Don't Add Passcode

Select your Location services preference:
Location Services

Enable Location Services

Disable Location Services

What is Location Services?
Location Services allows apps like Maps and services like Spotlight Suggestions to gather and use data indicating your approximate location.

About Location Services
App Analytics

Share with App Developers

Don’t Share

About App Analytics

Help app developers improve their apps by allowing Apple to share crash data as well as statistics about how you use their apps with them.

About App Analytics and Privacy

Select, Get started. Your upgrade is now complete.

## Upgrade using your iPad only

*Note:* Apple have said you need at least 4.7GB of free storage space in order to update to iOS 8 on an iPhone and at least 6.9GB of free storage space on an iPad.

To upgrade using this method, select General → Software Update
